

Your **RECYCLING** **AND RUBBISH** collections

Your
new service
guide will
be delivered
in **MARCH**

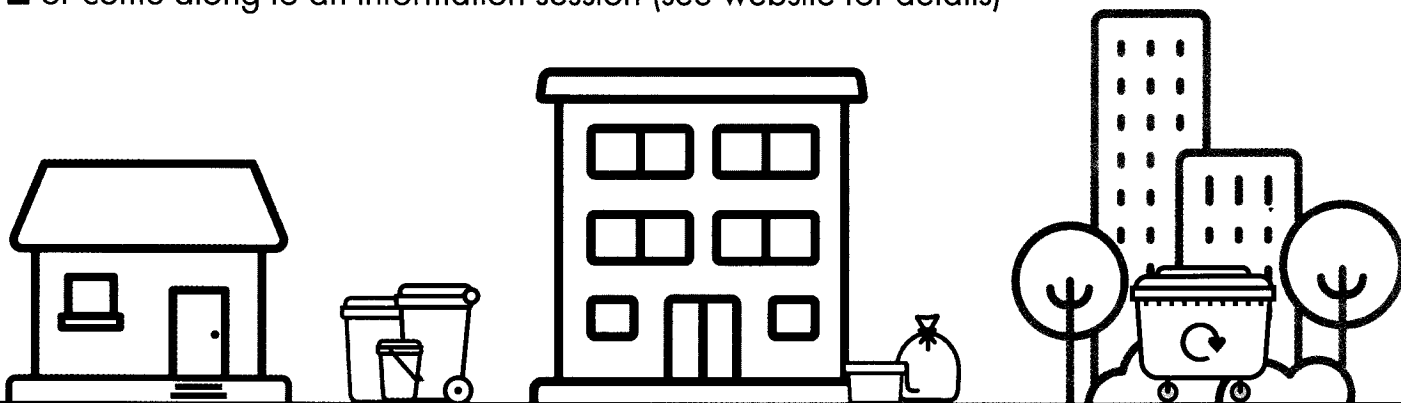

From 1 April we are changing the way we manage some of our collections.

Why?

-  **Increase recycling:** 85% of your rubbish can be recycled but currently residents recycle just **25%**. **Let's change this!** You may be surprised how much you can recycle around your home. Keep the list over the page as a handy reminder.
-  **Make savings:** Cuts to our budget from central government mean we have to find cheaper ways of doing things.

Your new service guide will explain any changes that may affect your household.

- visit camden.gov.uk/recyclingandrubbish
- call **020 7974 2202**
- or come along to an information session (see website for details)

What can I put in my recycling?
